

AI Programs

AI & Disinformation (English)

Disinformation refers to false information created to mislead people, and it's nothing new. But today's AI-powered tools and social media have made it easier and faster to create and spread disinformation. In this lecture, we'll explore how AI is used to create convincing deepfakes and clone voices, making it challenging to distinguish between real and fake content. We'll also review best practices for evaluating information and explore tech tools that can help identify content created with AI.

AI All Around (English)

If it seems like AI is showing up everywhere, it's not just you! From searching the web to attending a Zoom meeting, AI tools are now available to help with most online tasks. In this lecture, we'll explore many of the digital platforms and websites generative AI is now available. We'll discuss how the tools try to make tasks easier and go over privacy considerations to keep in mind when using them.

AI Image Generators (English/Spanish)

Do you envision something in your mind's eye but struggle to bring it to life? There's an AI tool for that! This lecture will explain how artificial intelligence can turn your words into stunning realistic and imaginative images in seconds. We'll demonstrate an AI image generator and the wide range of visual and artistic styles it can produce. You'll also learn tips for getting the most out of this new and exciting technology so you can get started!

Everyday Uses of AI (English/Spanish)

Everyone is talking about AI. Come to this class to be a part of the conversation! This lecture will show you the ways AI is already present in everyday tasks and how it is used in everything from voice assistants to customer service and healthcare. We'll look at common applications of AI across multiple industries and discuss ways you too can take advantage of this influential technology.

Is that AI? (English/Chinese/Spanish)

With the advances in artificial intelligence technology, AI programs can now create ultra-realistic images and videos. At first sight, it may be hard to tell if what you see was created or altered by AI. In this session, we'll teach you tips and tools to help you determine if an image was generated by AI. We'll show you how to do a reverse image search to find out the internet history of any image you find online. While we can't definitively tell whether an image is AI, these tools will make you a tech savvy internet user.

Intro to AI (English/Chinese/Spanish)

Curious about A.I.? Want to know more about Chat GPT? This lecture will introduce some of the basic ideas around artificial intelligence. We'll talk about how A.I. is being used today, what its current limitations are, and how it will shape the future!

Intro to Chatting with AI (English/Spanish)

Curious about using ChatGPT or Gemini but not sure where to start? In this lecture, we'll explore tips for using generative AI chat programs so you can make them work for you. You'll learn how to write questions, or prompts, that are specific and effective at getting helpful responses. Whether you plan to use them at work, for personal projects, or just for fun, we'll show you how this tech can help you with all sorts of tasks. We'll also cover best practices for privacy and security so you can be confident user.
